Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner asked Ms. Lee if claims 43 and 53 could be amended to delete the phrase "at least one", and replace with --an--, as it relates to the additive, in order to be consistent with the latter part of the claim that recites that the additive "consists essentially of iron oxides nanoparticles". Also, in claim 43, the phrase "is in the form of iron oxide nanoparticles, and wherein the additive" is redundant, and should be canceled. Ms. Lee agreed and such is reflected in the attached Examiner's amendment. .
